A real Italian espresso…

The caffè europa line is renowned for having introduced the two-size cup container to the mid-low cost market to offer real Italian espresso in a small cup.

DESIGN
Rounded door with architecturally-inspired motifs, backlit panel and intuitive lighting that allows the drink dispensing process to be followed.

USER INTERFACE
16 programmable selection buttons, 2 pre-select buttons to adjust sugar visually on LED bar. Monochrome graphic backlit display with programmable background colour.

DRINKS
The *espresso* version can accommodate 5 or 6 product canisters plus a coffee bean canister for those who love Italian espresso.
The *instant* version offers up to 7 product canisters and 4 mixing bowls.
A valveless pump system means problems caused by limescale are minimized. Both versions can be equipped with a cooling unit to offer cold drinks. A programming feature allows mixing speeds to be altered to adjust the density of drinks.

PERFORMANCE
A switch-mode power supply ensures consistent dosages and performance and protection against short circuits.

PROGRAMMING
Highly flexible and personal drink profiling can be achieved either manually via the machine's display or through the **rheAction** support software.

DOSAGE SETTING
Product quantities can be fine-tuned by adjusting the running times of product and pump motors.

USER FRIENDLY
Internal components can easily be removed for cleaning and maintenance.
Transparent cup containers allow quantity to be checked visually when the door is open.

ENERGY CONSUMPTION
Energy saving features include:
• programmable switching on/off times to keep the machine at an energy saving stand-by temperature when inactive;
• low voltage LED's to minimize consumption.
Total energy consumption is recorded starting from the first service.

MULTIMEDIA VERSION
A more innovative version with a LCD 10.4" screen to watch adv videos or provide nutrition information about the products and more.

MULTITOUCH VERSION
A further step in innovation with a central touch panel for selecting drinks, and an LCD 5.7" screen to watch adv or informative videos. A new interface for this market segment that guides the user in the choice of no less than 25 different drinks.

TECHNICAL SPECIFICATIONS

|	INSTANT	ESPRESSO
SELECTIONS	16+2	16+2
TECHNICAL DATA		
Height (*mm*)	1830	1830

Weight (*kg*)	108	120
Max no. canisters	7	7
Max no. mixing bowls	4	3
No. of boilers	1	1
Boiler capacity (*l*)	3,4	0,4
Electrical supply (*V-Hz*)	230-50/60	230-50/60
Power (*W*)	1700	1300
Water connections	3/8" male face 0.1-0.8 Mpa with anti-flood sensor	
STANDARD COLOUR	metallized grey (RAL 9022)	
CUPS		
1 turret cup dispenser Ø 70 mm	600	600
2 turrets cup dispenser Ø 70 mm	450	450
Ø 57 mm	500	500
STIRRER LENGTH (MM)	89/104	89/104

EXAMPLE CONFIGURATION

instant version

short coffee	capp-ciocc	chocolate	long white barley
long coffee	milky coffe	tea	short ginseng
short white coffee	coffee with choco	short barley	short white ginseng
cappuccino		short white barley	long white ginseng

espresso version

espresso	cappuccino	chocolate	decaf. short	white coffee
long coffee	milky coffee	tea	short ginseng	
short white espresso	espresso with choco	decaf. coffee	short white ginseng	
long white espresso	milk	decaf.long coffee	long white ginseng	

Wide range of customization
Compatible with all payment systems

rheady suite

OPTIONS
Sales data collection through RFID system
Data audit in accordance with EVA / DTS standars
Cup sensor
Colling unit for cold drinks
Independent water tank kit 20 l
FBT module for leaf tea
