- **Big opportunities**

High capacity - up to 1120 products,
7 spirals per drawer.

7 easily height-adjustable shelves
(8 on request).

Ample refrigerated products
storage area.

Stratified and adjustable internal
temperature.

- **User interface**

Wide and well-lit window
for clear product view.

Numerical LED keyboard, that
guides users to make their choice.

Graphic monochrome backlit
display incorporated,
for price of chosen product.

- **User friendly**

The cooling unit can be quickly
and easily removed.

Motors can be installed without
using any tool.

Machine can be moved through
spaces just 65 cm wide.

- **What's new?**

Selection width can be adjusted
on request and matched to one
or more motors (twin motors).

Collection area arranged for
FTCA optical sensor.

Magnetic gasket improves door
and chassis adherence.

- **Safety**

Secure door with 4 fastening
points.

Collection area equipped with
motorized sliding antivandalism
system.

- **Audit data**

Sales data available in EVA-DTS
format through IRDA (optional)
or Flash-Key.

First (3 products)

After (25% more space)

snack europa is completely flexible thanks to the innovative Flexspir® system (optional), that makes space between spirals adjusted to the millimetre, thus allowing all selections to be configured suit to any need.

The machine can accept a wide variety of products, optimizing available space, without using any tool: from newspaper to sewing kit, now everything is possible.

Vivilight® is an innovative high efficiency LEDs lighting system (optional) that allows a clear sight of products.

It offers the opportunity to minimize energy consumption, by adjusting brightness and temperature through time.

Payment systems

Compatible with coin systems, change givers and note acceptors.

Cash-less systems, key systems.
